Jewelry bracelet - DIY

This is one of my favorite bracelets. It's easy to make too. And it makes for a great hand made gift for a teacher or for mother's day maybe.

Here is all you need:

A chain link bracelet. [Similar one here.](#)

Some eye pins.

Assorted beads. I picked all jewel toned ones and made each bead a different one.

Round nose pliers.

jewelry making 1

And here are the steps:

jewelry making 2

Steps:

1. Insert the eye pin into the bead
2. Cut to size
3. Bend around pliers
4. Fiddle until the loop looks nice
5. Attach loop to bracelet link. I put one bead on each link.

I made a gift wrap idea for this bracelet, which you can find [here](#)
